

Summer Youth Programs

Offering a variety of summer youth programs for students ages 8 to 25 that empower them to develop socially, academically, and independently during the summer months.

- **Carroll Kids:** Week-long day program for grades 4-8. Dates: TBD
- **Carroll Teens:** Five-day overnight program for students in grades 6-9. Dates: TBD
- **Youth In Transition:** Six-week residential program for ages 15-20, running from July 5 – August 12, 2027.
- **Computing For College:** Three-week program for high school juniors to current college students, running from July 12 – 30, 2027.
- **Real World of Work Experience:** Seven-week off-campus residential program for students who are 16 years old or older, running from June 28 – August 12, 2027.
- **Summer Internships:** Seven to ten-week residential internships for students who are between the ages of 19 to 26, running between June - August.

“The summer programs my daughter attended last summer had an enormous effect on her development, emotionally, socially, and academically. She was a changed teen after her experience with the Carroll Center, and I am forever grateful to your organization for her growth and the insights she came away with as a result of attending.”

Chuck L.

Our Programs

- **Carroll Kids:** Targeted learning in orientation and mobility, daily living, social skills, technology, and fun, skill-building activities that promote learning and friendship.
- **Carroll Teens:** Designed to foster independence and self-confidence. Students develop self-advocacy and apply their skills in orientation and mobility, daily living activities, and the use of accessible technology.
- **Youth In Transition:** Build life skills for success in high school, college, and work. Participants learn to travel in urban areas, cook their favorite foods, do laundry, strengthen technology skills, work independently, and become confident leaders and self-advocates.
- **Computing for College:** Offers advanced computer instruction to help rising juniors in high school strengthen technology skills and gain greater independence in higher education.
- **Real World of Work Experience:** Provides hands-on work experience in various vocational, community, and entrepreneurial settings that support students in building independence as they venture into the working world.
- **Summer Internships:** An exclusive opportunity for capable, motivated students to gain valuable experience in education, rehabilitation, science, or non-profit careers with housing and meals included.

Program Highlights

- Build greater independence and self-confidence
- Make meaningful, lifelong friendships
- Grow self-advocacy skills and determination in a supportive environment
- Apply learning through real-world experiences
- Learn from skilled, compassionate instructors
